LEGAL & LIABILITY WORKSHOP

**"Disruptive Times-Opportunity or
Threat for Marine Insurers?"**

Frederic DENEFFLE - CEO – GAREX

Takeaways:

- Insurers need to monitor and understand technological evolution
- Disruption's aim = increased opportunities ...but liability and risks still there!
- International convention(s) will follow....
- meanwhile shipping still needs insurance which meets today's risks and future exposures

So feel confident - we still need marine insurers!

VOTING TIME 1= poor , 5 = excellent

"The impact of disruptive innovation on the shipowner's liability ".

Speaker: Manami Sasaoka, Associate Professor, Yokohama National University

-Presentation Content :1 to 5
